Agenda Item Narrative

Consider authorizing Foley Equipment to complete repairs to the 2016 953D Track Loader in the amount of \$19,824.93.

Background

Staff has worked with Foley Equipment to diagnose the problem that caused oil to leak from the flywheel housing. The issue is with one of the drive pumps. In order to replace the pump, the entire cab must be removed. The proposal from Foley includes all the labor and materials to remove the cab and replace three pumps. If one or two of the pumps are still in good condition, the price will be lower. This 2016 track loader is used everyday on the Construction and Demolition Landfill and remains in good overall condition. The machine currently has 4,932 hours and is not scheduled for replacement until 2026 at the earliest. Staff recommends moving forward with the repair.

Specific Action Required

Motion authorizing Foley Equipment to complete repairs to the 2016 953D Track Loader in the amount of \$19,824.93.

An affirmative motion in support of this item would read as follows: I make a motion to authorize Foley Equipment to complete repairs to the 2016 953D Track Loader in the amount of \$19,824.93."
