

DUST CONTROL PROGRAM FOR 2018

Franklin County is offering dust control to county residents who live on county roads for 2018. The cost of this program is borne by the landowners requesting the dust control.

Franklin County is offering to have a contractor apply a magnesium chloride dust control material on rock roads to restrict dust. The cost of material, labor and equipment to treat a 300-foot strip of road (the minimum) is \$420.00, or \$1.40 per running foot. The expected life of the dust control is approximately six-months, but varies with the weather, traffic counts and other factors. Some residual control will remain even after the road is bladed.

Any Franklin County resident wishing further information about this program should contact the Franklin County Public Works Department at 785-229-3550.

*Anyone wishing to participate and receive this service should sign and make payment in the Public Works Department at 1428 S. Main, Suite 5, **NO LATER THAN MARCH 30, 2018***

NO DUST CONTROL AREAS WILL BE ADDED AFTER MARCH 30, 2018
