ITEM: Discuss agenda items for 2009.

Background: In the past the Commission has invited various public officials as well as local and state agencies to provide updates to the Commission at the Commission meetings throughout the year. A list of public officials and agencies that have been invited to past meetings is included with this agenda item for your review. It is recommended that this practice continue in 2009 and that the Commission discuss who they would like to receive updates from at their meetings in 2009. It is recommended that the Commission consider local and state representatives, outside agencies funded by the County, local municipalities and other agencies that provide services to the citizens of Franklin County. Further, it is recommended that agencies funded by the County be invited to provide the County with regular reports and updates throughout the year.

In addition, the Commission has in the past hosted a County Summit. It is recommended that this County Summit continue in 2009. Based upon information received during the preparation of and public comments for the 2009 Franklin County Strategic Plan, a recommended topic for the Summit would be the possibility of a unified wholesale water district and/or other possible solutions to the current and future supply of water for the citizens of Franklin County.
