

**FRANKLIN COUNTY
COMMISSION AGENDA ITEM**

TO: BOARD OF FRANKLIN COUNTY COMMISSIONERS	Reviewed:
FROM: JAMES M. HAAG, JR.	Ext. 3552
DEPARTMENT: PUBLIC WORKS	
DATE: 7/27/09	No.

ITEM: Discuss contracting with Cook, Flatt & Strobel Engineers, P.A. to perform the biennial bridge inspections for the lump sum amount of \$13,851.00

Background: Federal Law requires bridge inspections to be performed every two years with fracture critical bridges inspected every year. In Kansas the inspection responsibility has been delegated by KDOT to the local governments. Cook, Flatt & Strobel Engineers, P.A. have inspected the Franklin County bridges the last 4 biennial inspections.

Recommended Action: Discuss contracting with Cook, Flatt & Strobel Engineers, P.A. to perform the biennial bridge inspections for the lump sum amount of \$13,851.00

Attachments: Proposal

Re: Franklin County
2009 Biennial Bridge Inventory and Appraisal

Dear Jim:

We appreciate receiving your request for an engineering proposal for the above captioned project. Cook, Flatt & Strobel Engineers, P.A. is looking forward to providing the required services to Franklin County.

We appreciate the opportunity to present Cook, Flatt & Strobel Engineers, P.A. for consideration. Should there be any questions or further information required, feel free to contact Kenny Blair or myself.

Respectfully,

Robert S. Chambers, P.E.
Vice President

CONCEPT TO COMPLETION...INNOVATIVE, SENSIBLE RESULTS

Founded in 1961, Cook, Flatt & Strobel Engineers, P.A. (CFS) has become one of the Midwest's leading civil engineering firms through its commitment to the highest quality and efficient project management. The firm has offices in Topeka, Kansas, Wichita, Kansas and Kansas City, Missouri and has grown to over 100+ employees.

CFS specializes in infrastructure development and has completed over 6,000 diverse projects. The firm serves clients in both the public and private sectors. We offer value added solutions with unique perspectives by maintaining expertise and synergy between multiple civil engineering disciplines. Over the years, we have provided quality professional consulting engineering services in a multitude of disciplines to government agencies, industries and individuals.

CFS capabilities include:

- Bridge Design and Inspection
- Transportation Design
- Planning and Site Development
- Environmental Design
- Stormwater Handling and Design
- Sanitary Sewer Design
- Construction Management/Inspection
- Surveying

CFS is an employee-owned business with every employee having a personal stake in meeting clients' needs. Expertise gained through experience is fueled by a "can do it" attitude which prevails throughout the firm.

Finally, our high employee tenure and low turnover rate translates into a high continuity of effort on client project work. This stability helps ensure client "peace of mind" that the work will be done efficiently and effectively.

SERVICE THAT MATTERS

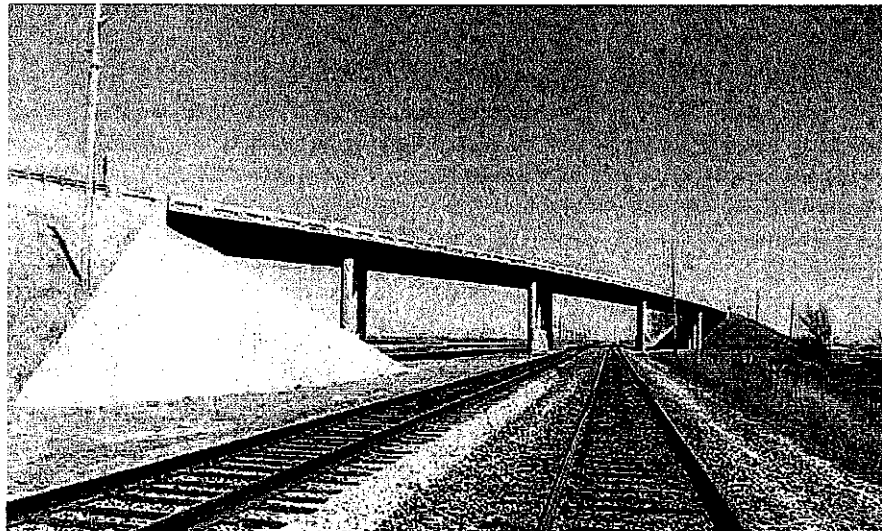

CONCEPT TO COMPLETION...INNOVATIVE, SENSIBLE RESULTS

Bridges are a specialty at CFS. In more than four decades, we have accumulated an impressive list of bridge design rehabilitation and structural analysis projects. These bridge designs have included reinforced concrete, prestressed concrete, steel trusses, continuous steel rolled beams, continuous steel welded plate girders, horizontally curved steel plate girders and hybrid steel girders. In addition, CFS has provided load rating and biennial inspection services for thousands of existing bridges throughout the Midwest.

CFS has also provided construction inspection services since our beginning. Cook, Flatt & Strobel has built a staff of highly experienced construction inspectors, providing them with on-going training and testing equipment. We have provided construction inspection services for numerous site development projects throughout central and eastern Kansas. CFS has also had open-ended contracts to provide construction inspection services directly to KDOT since 1992.

Cook, Flatt & Strobel has specialized in highway, bridge and boundary surveying for the past 49 years. We use leading edge technology such as Microstation, AutoCAD and have GPS surveying capabilities to perform surveying duties. Duties include right-of-way staking on construction, grading and bridge projects, preliminary and topographic surveys for construction projects, construction staking, bridges, storm and sanitary sewers, curb and gutter and building layout.

Each member of the firm is a proven professional and integral to the success of our company. Both technical and managerial experiences have a significant presence in the background of our staff. Our veteran staff members take pride in offering mentorship and guidance to the younger staff. These elements pool together to help create the framework from which we operate and prepare sound designs today and for years to come.

BRIDGES

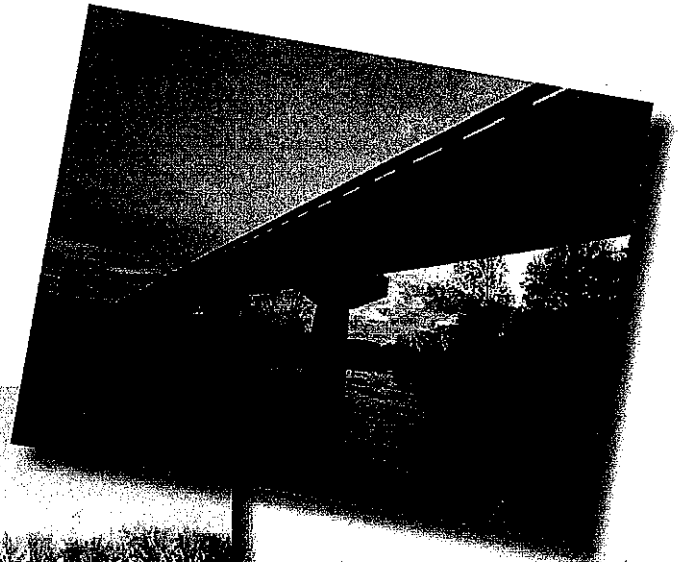

CONCEPT TO COMPLETION...INNOVATIVE, SENSIBLE RESULTS

Bridges are a strong suit at CFS. Whether it's a design for highway separations, pedestrian bridges, long span railroad crossings or stream crossings, CFS can determine and execute the most suitable design and construction approach. We are constantly seeking new technology in highway and bridge design in order to assist our clients in achieving the safest, most efficient and convenient movement of people and goods.

In addition, CFS has provided load rating and biennial inspection services for thousands of existing bridges throughout the Midwest. We also perform structural inspections on over 800 bridges each year.

Some types of bridge engineering projects include:

- Highway Separations
- Pedestrian Bridges
- Long Span Railroad Crossings
- Stream Crossings
- Bridge Design
- Bridge Rehabilitation
- Structural Analysis
- Load Rating
- Biennial Inspections

CFS Cook, Flatt & Strobel
ENGINEERS, P.A.

WORK PLAN

1. **Data Collection:** CFS will review previous inspection reports and individual files for each bridge. CFS will also acquire existing plans for any new structures that have been constructed since the last inspection.
2. **Field Inspections:** CFS will perform field inspections of all County bridges in accordance with the National Bridge Inspection Standards and Kansas Bridge Inspection Standards. This inspection will include photos of each bridge as requested in the County's RFP.
3. **Office Work:** CFS will perform any new load rating required due to new structures or due to modifications/repairs or deterioration of existing structures. All field data will be used to update the BLP Web Portal and Structural Inventory and Appraisal (SI&A) sheets will be produced and inserted into each bridge file along with photos taken during field inspection.
4. **Report Write-up:** CFS will provide a bound report.
5. **Submit Preliminary Copy of Report:** CFS will submit a preliminary copy of the Report for the County's review.
6. **Finalize Report and submit data to KDOT-BLP:** CFS will incorporate the County's comments/recommendations into the final report and forward the data to KDOT for their review.

HOURS AND FEES

FIELD WORK

243 Bridges at \$45.00	\$10,935.00
------------------------	-------------

OFFICE WORK

243 Bridges at \$12.00	\$2,916.00
------------------------	------------

GRAND TOTAL

	\$13,851.00
--	-------------

Cook, Flatt & Strobel proposes to provide the required services to Franklin County for a Lump Sum of \$13,851.00.

PROJECT SCHEDULE

<u>Date</u>	<u>Description</u>
August 10, 2009	Notice to proceed from Franklin County
October 5, 2009	Field work completed
October 26, 2009	Submit preliminary report to Franklin County (3 weeks review time)
November 16, 2009	Submit data to KDOT-BLP
November 23, 2009	Present final reports and data to Franklin County

PROJECT TEAM

Based on our current workload, proper staffing can be provided to complete this project. Staff assignments for this project will be as follows:

Project Manager:	Bob Chambers, P.E.
Senior Bridge Inspectors:	Kenny Blair, P.E. Gene Petersen, P.E.
Senior Technicians/ Bridge Inspectors:	Ed Campbell Kenny Fields
Secretary:	Glenda Jackson

Resumes of our Project Manager and Senior Bridge Inspectors are included in this submittal.

BOB CHAMBERS, P.E.

Experience

Mr. Chambers currently serves as the firm's Structural Design Engineer for highway bridges and culverts and structural inventory and appraisal. He has also served as CFS' lead engineer on KDOT's "On-Call" contracts. He has approximately 28 years of experience and has worked as client contact for KDOT, MoDOT and several counties throughout Kansas and Missouri. The following list represents some of his experience:

- **Biennial Bridge Inspections**
 - *Reno County, Kansas*
 - *Chase County, Kansas*
 - *Labette County, Kansas*
 - *Washington County, Kansas*
 - *Chautauqua County, Kansas*
 - *Neosho County, Kansas*
 - *Franklin County, Kansas*
 - *Sumner County, Kansas*
 - *Pottawatomie County, Kansas*
 - *Osage County, Kansas*
 - *Wabaunsee County, Kansas*
- **Kellogg Freeway, Sylvan Lane to KTA Access Road-Wichita, Kansas**
- **Kellogg Freeway Study-Wichita, Kansas**
- **US 75 Highway Design and Plan Preparation-Topeka, Kansas**
- **Bridge over Neosho River, US 166-Chetopa, Kansas**
- **K-96 Highway SW Bypass Route**
- **US 400 Bypass-Dodge City, Kansas**
- **Oakland Expressway, I-70 intersections-Topeka, Kansas**
- **East Topeka Interchange-Topeka, Kansas**
- **Fir Road reconstruction underpass at KC Southern Railroad-Jasper County, Missouri**
- **US 166 Highway-Arkansas City to Sedan, Kansas**
- **Bridge design services for MoDOT statewide**
- **Bridge 123.160 on the Kansas Turnpike**
- **John Kilpatrick extension-Oklahoma City, Oklahoma**
- **55th Street over Big Slough-Wichita, Kansas**
- **33rd Street over West Drain-Wichita, Kansas**

Experience

Mr. Blair is the Structural and Design Engineer in responsible charge of the firm's overall bridge and building design and structural inventory and appraisal procedures. He has approximately 29 years of experience in the bridge engineering industry and his background includes extensive work with local, state and federal agencies. He recently completed work on the US 400 Dodge City Bypass project that included surveys, concept review to evaluate alternatives, right-of-way, environmental issues, maintenance of traffic, public involvement, hydraulic analysis and project costs. The following list represents some of his experience:

- **K-96 Highway SW Bypass-Hutchinson, Kansas**
- **US 400 Bypass-Dodge City, Kansas**
- **US 166 Highway Corridor-Arkansas City to Sedan, Kansas**
- **15th Street Bridge over Rock Creek-Ottawa, Kansas**
- **Burlingame Road over south branch Shunganunga Creek-Topeka, Kansas**
- **33rd Street over West Drain-Wichita, Kansas**
- **55th Street over Big Slough-Wichita, Kansas**
- **Spring Street Bridge replacement over Birch Creek-Nevada, Missouri**
- **Fir Road reconstruction underpass at KC Southern Railroad-Jasper County, Missouri**
- **13th Street bridge over Cowskin Creek-Wichita, Kansas**
- **On-Call Services for KDOT-Statewide**
- **Two bridges over Republican River-Clay County, Kansas**
- **NW 74th Street over Indian Creek-Shawnee County, Kansas**
- **Clifton Bridge over Republican River-Clay County, Kansas**
- **K-57 improvements from US 59 to St. Paul**
- **Central Bridge at west branch Gypsum Creek-Wichita, Kansas**
- **Oliver Street Bridge at Gypsum Creek-Wichita, Kansas**
- **Bridge repair on Bridge No. 2.5-20-Franklin County, Kansas**
- **NW Hoch Road-Shawnee County, Kansas**
- **Bridge BSN 420-Clay County, Kansas**
- **Bridge No. 7513-Cloud County, Kansas**
- **SE 29th Street over Stinson Creek-Shawnee County, Kansas**
- **Bridge replacement-Chase County, Kansas**
- **Bridge No. 3.5-Y.1-Greenwood County, Kansas**
- **Morganville Bridge-Clay County, Kansas**

GENE PETERSEN, P.E.
BRIDGE ENGINEER

Education

B.S. Civil Engineering, Kansas State University

Professional Registration

Professional Engineer: Kansas and Missouri

Professional Affiliations

American Society of Civil Engineers

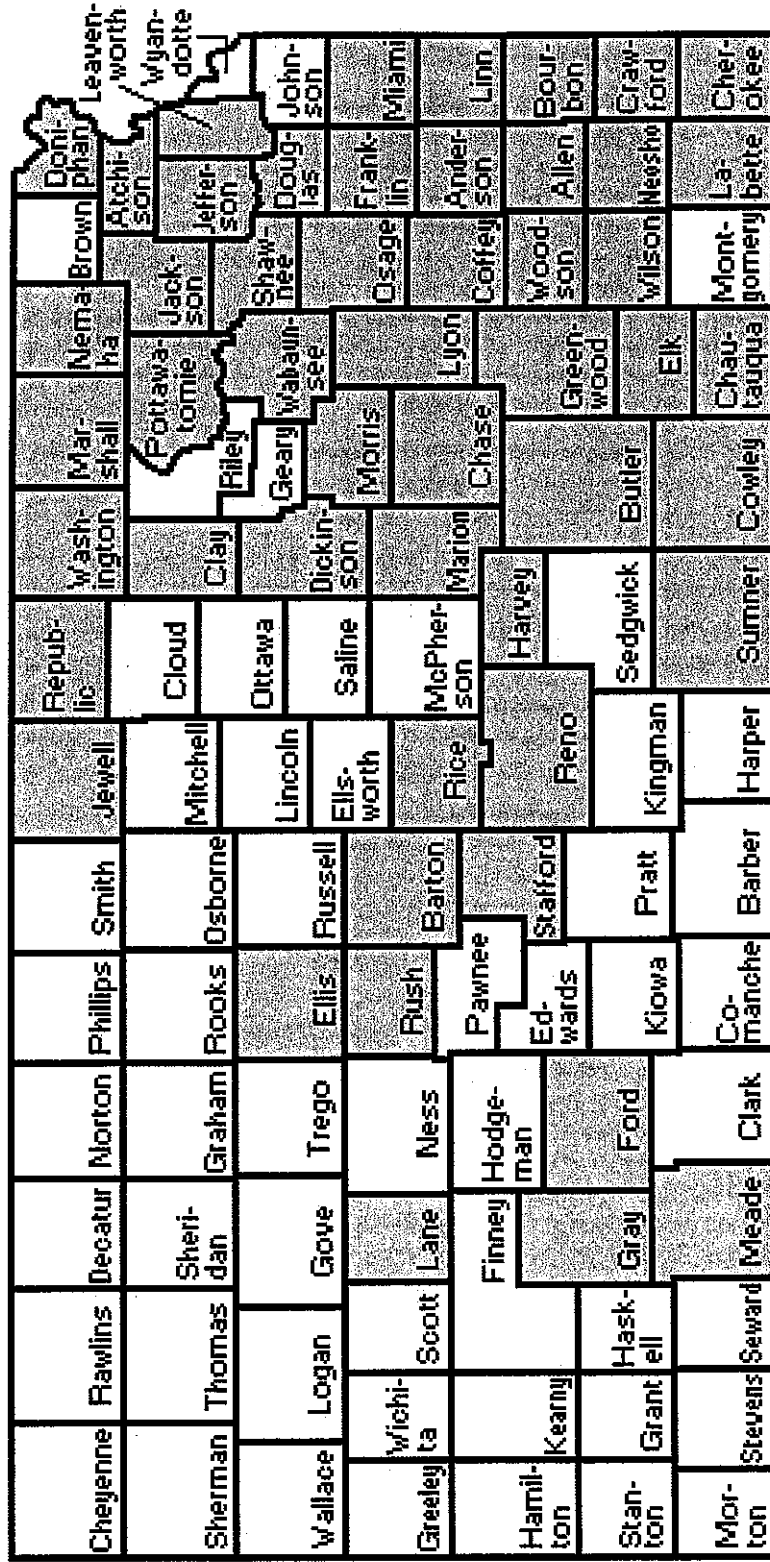

Experience

Mr. Petersen joined Cook, Flatt & Strobel Engineers in 1998. His responsibilities have included various duties such as bridge inspection, bridge design and construction inspection including Biennial Bridge Inspections and 5 Truck load ratings of County bridges. He has also been involved with hydrologic and hydraulic backwater analysis of various stream crossings using HEC02 and WSPRO as well as structural design of substructures for Haunch slabs and Prestressed Beam Bridges using StaadIII and RC PierLa. His background includes the I-70 widening of crossroads and bridges in Douglas County. This KTA project included design for final crossroads over various locations in Douglas County. The following list represents his experience:

- **Biennial Bridge Inspections**
 - *Reno County, Kansas*
 - *Chase County, Kansas*
 - *Labette County, Kansas*
 - *Washington County, Kansas*
 - *Chautauqua County, Kansas*
 - *Neosho County, Kansas*
 - *Franklin County, Kansas*
 - *Sumner County, Kansas*
 - *Pottawatomie County, Kansas*
 - *Osage County, Kansas*
 - *Wabaunsee County, Kansas*
- **Design of reinforced concrete haunched slab bridges**
- **US 166 over Neosho River-Chetopa, Kansas**
- **Project No. 00-561 and 01-538-Clay County, Kansas**
- **13th Street Bridge over Cowskin Creek-Wichita, Kansas**
- **I-70 widening crossroads and bridges-Douglas County/KTA**
- **Bridge replacement-Jasper County, Missouri**

BIENNIAL BRIDGE INSPECTION KANSAS COUNTIES

The following map illustrates CFS' extensive experience with providing Biennial Bridge Inspection services to Kansas counties.

CFS has provided inspection services to counties and cities throughout Kansas and Missouri. The following list represents our extensive biennial bridge inspection experience.

<u>Project</u>	<u>Location</u>	<u>Name & Address of Owner</u>	<u>Number Bridges</u>	<u>Year Completed</u>
Biennial Bridge Inspection	Crawford County, Kansas	Crawford County Girard, KS	244	Active
