## **PRESS RELEASE**

Franklin County Public Works has been notified by Blevins Asphalt Construction Co., Inc. that they intend to begin the 2009 Chip Seal Project on Monday, July 27, 2009. The project involves spraying asphalt on the roadway and then embedding limestone chips. Drivers may encounter loose gravel, dust, and construction traffic during the course of the project. The roadway will be broomed before the asphalt pavement and after the chips are embedded. The Majority of the work is in the southwest quadrant of the County. The Public is encouraged to obey the traffic control signs, flaggers and to avoid driving on the fresh oil. Questions may be directed to the Department at (785) 229-3550.
