**Date:** Monday, May 15, 2023

## **AGENDA ITEM NARRATIVE**

Discuss amending the Environmental Sanitation Fee Schedule for the cost of Soil Analysis/Site Assessment fees.

## **BACKGROUND**

In May of 2010 the Board of County Commissioners adopted Resolution #10-16 approving a fee schedule for inspections and licensing associated with the Franklin County Environmental Sanitation Code for On-Site Sanitation and Water Facilities.

Based on recent concerns regarding the availability of the company to do soil profiles, Staff reviewed the fee schedule and realized it only allowed County staff to do soil analysis for upgrades and lagoons. The current fee for this service is \$150.00.

The new County Sanitarian, Tom Markus, has experience and knowledge on conducting soil profiles and has stated that he is willing to start conducting these tests in order to keep projects on schedule and to assist in alleviating the burden on the only company in Franklin County that currently conducts the soil profiles.

## **SPECIFIC ACTION REQUESTED**

Discuss and consider the amendment to the Environmental Sanitation Fee Schedule to allow the County Sanitarian to do soil analysis/site assessments for all systems at a fee of \$300.00
